1st strand cDNA was primed with a NotI-oligo(dT) primer. Five prime
end enriched, double-strand cDNA was digested with Not I and cloned
into the Not I and EcoR V sites of the pCMVSPORT 6 vector. Library
was normalized. Library was constructed by Life Technologies, a
division of Invitrogen. This sequence belongs to sequence cluster
                                                                                                                                                                                                                                           On May 5, 2003 this sequence version replaced gi:30378625. First strand cDNA synthesis was primed with an oligo-dT primer containing a Not I site. Double stranded cDNA was ligated to an EcoR I adaptor, digested with Not I, and cloned directionally into pT7T3-Pac vector. The oligonuclectide used to prime the synthesis of first-strand cDNA contains a library tag sequence that is located between the Not I site and the (dT).18 tail. The sequence tags for this library are: fetal eyes, AGRATCAAGA; lens, CGATTAGCGA; eye anterior segment, AATGCCGCAT; optic nerve, CCATTAAGTG; retina, CCGCG; Retina Foveal and Macular, GTCC; RPE and Choroid, ACCTA. This library was created for the program, Gene Discovery in the Visual System, supported by National Eye Institute (NEI).

                                                                                                                                                                                                                                                                                                                                                                  RESULT 46
                             Sequence 7, Application US/09575081B
Patent NO. 6692934
GENERAL INFORMATION:
APPLICANT: BRISTOL-MYERS SQUIBB COMPANY
TITLE OF INVENTION: NOVEL ORGANIC ANION TRANSPORT PROTEINS
FILE REFERENCE: DB23
CURRENT APPLICATION NUMBER: US/09/575,081B
CURRENT FILING DATE: 2000-05-19

No. is the number of results predicted by chance to hav
score greater than or equal to the score of the result being
and is derived by analysis of the total score distribution.
